

CHANCE®

INSTANT FOUNDATION™ System

A CASE HISTORY

REPORT

Project:

Virginia Department of Transportation
Rest Stop, I-85
Dinwiddie, Virginia

Distributor:

Walder Foundation Products, Inc.
Ashland, Virginia

Installer:

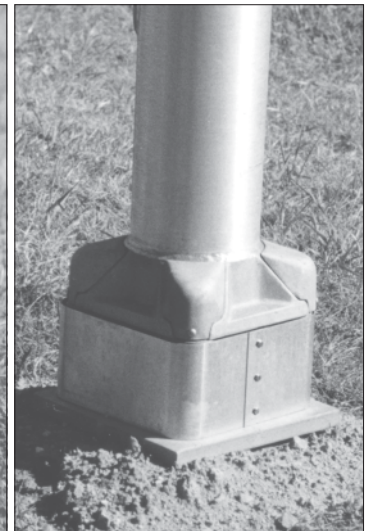

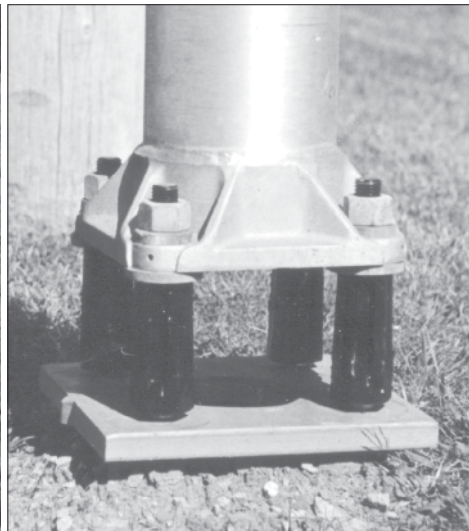

North Landing Electric Co.
Virginia Beach, Virginia

Installer Comments:

A real time saver. Thirteen foundations installed in one day. No punch list items. Would highly recommend.

Job Description:

Virginia Department of Transportation replaced 60 old wooden poles with new aluminum poles. Chance INSTANT FOUNDATION anchors were specified as an alternate to concrete piles. A soil probe was done and it was determined that on the 30 ft. poles with one arm to use a 6" x 5' foundation anchor and on the two arm poles to use a 6" x 7' foundation anchor. After all materials were delivered to the site, work began. The new foundation anchors and new poles were installed in approximately 7 working days.
